

DotAgile is Deloitte SI's suite of Agile market offerings, ready to scale and adapt to the needs of our clients across delivery teams and enterprises. Our offerings are spread across four key Agile solutions:

Diagnose | **Roadmap** | **Transform** | **Optimize**

Diagnose

Evaluate Agile needs and readiness within an organization, using rapid hands-on assessments, exclusive Maturity Models, and engaging workshop sessions.

Roadmap

From the diagnosis, collaborate with clients and experts to create custom plans with incremental, obtainable goals that consider the unique requirements of the organization.

Transform

Provide end-to-end support of Agile transformations through a wide array of training, scalable methods, tools, subject matter experts, and specialized services.

Optimize

Improve performance and continuously innovate through a suite of optimization tools designed to grow and empower an organization's Agile culture.

DRAFT

DotAgile is...

A suite of collaborative end-to-end service offerings designed to support all phases of a shift to Agile within a team or organization. Our solutions run the spectrum of clients, from those just getting started to others with experienced delivery teams looking for opportunities to maximize their performance.

DotAgile is not...

A “one-size-fits all” cookie-cutter solution, a hybrid approach, or a silver bullet for issues within a team or enterprise.

Questions Clients Are Asking

What is Agile and how will it impact my organization?

Why is our Agile transition failing?

Isn't Agile just an IT thing?

How can we quickly improve our Agile delivery?

What's the point of Agile?

How can Deloitte help our teams use Agile more effectively?

Isn't Agile just a fad?
